YINCAE Advanced Materials Wins Global Technology Award at SMTAI 2022 for Adhesives/Underfills/Encapsulants

(Albany, NY) November 08, 2022 – YINCAE Advanced Materials, LLC is proud to announce that our company was awarded the 2022 Global Technology Award in the Adhesives, Underfills, and Encapsulants category! This ceremony took place on Wednesday, November 2nd at SMTAI 2022 Exhibition in Minneapolis, USA.

YINCAE's die attach material was recognized as one of the products that made the greatest impact on the electronics industry in the years 2021 and 2022. Due to its unique properties, YINCAE die attach adhesive has a high thermal conductivity and can achieve very thin bonding line thickness- there is no any bleeding and migration issue. It has excellent bonding strength, a thermal cycling performance, and can withstand extreme temperatures (-273°C) without any delamination.

About Global Technology Awards

The Global Technology Awards are universally recognized as the most international industry award, attracting entries from Europe, USA and Asia. Each year the Global Technology Awards recognize the latest innovations in production equipment and materials for the EMS industry by a distinguished panel of industry experts.

About YINCAE Advanced Materials, LLC

Founded in 2005, and headquartered in Albany, New York, YINCAE Advanced Materials is a leading manufacturer and supplier of high-performance coatings, adhesives, and electronics materials used in electronic and optoelectronic devices. YINCAE products provide innovative solutions to support manufacturing processes from wafer level, to package level, to board level, and in final devices.
